TJR

Your Satisfaction. Our Commitment

TJR Machining

“Tolerance – Just in time – Reliable”

Presenter

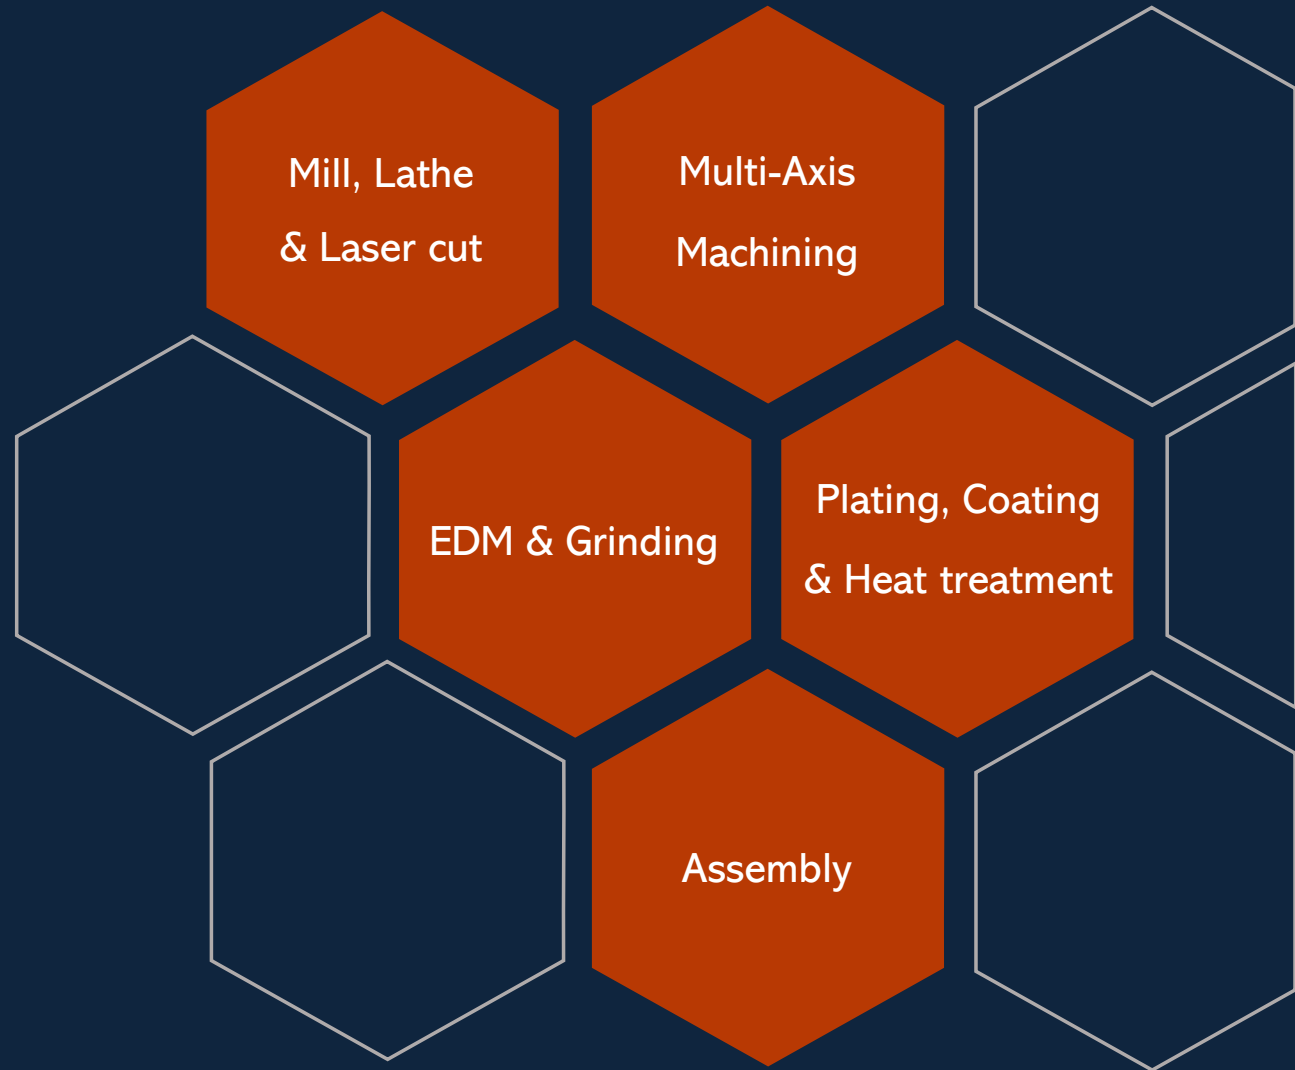

Alan Pham – CEO / Director

SCOPE

- Precision Machining with CNC machineries : Milling, Turning, EDM, Wire cut, Grinding... for prototypes, short run, high volume production.
- Multi-axis products, tight tolerances or complex profile product.
- Material: Aluminum Alloy, Steel, Stainless Steel, Plastic, Cooper Alloy, Special material: Titanium, Maraging Steel, Nickel, Tungsten carbide...
- Plating: Anodizing, Chromate, Electroless Nickel, Black Oxide, Nitriding, Zinc plate...
- Heat treatment, bead blasting, polishing...

Who we are?

Established in 2010 and headquartered in Vietnam, specializes in providing precision machining processing solutions using advanced machinery such as CNC milling, turning, wire cutting, electrode firing, and grinding...

With 15 years of industry experience, we deliver customer satisfaction through high-quality products and competitive pricing, aligned with current and future market development trends.

Our primary clientele comprises customers in the US and Europe, operating in sectors that demand high accuracy and reliability in material size and origin, fully meeting all technical requirements.

We take pride in vendoring with major companies and corporations across various industries, including Aerospace parts, Medical device, Semiconductors, Meat cutting, and Automotive. Notable customers include Monata Aerospace, KLA, Applied Materials, Varian, EKS0 Bionic...

Certified under ISO 9001:2015 for our quality management system, we continually upgrade our machinery and technology to reduce processing time, enhance accuracy, and ensure product uniformity while minimizing costs, all in the best interest of our customers.

Guided by our philosophy of "Satisfying customers," we excel in our endeavors and remain committed to this principle.

Choosing TJR Machining means not only receiving high-quality products at competitive prices but also benefiting from our assurance, reliability, and unwavering commitment to customer satisfaction.

ISO 9001: 2015

CERTIFIED

QUALITY SCORE: 100%

DELIVERY ON TIME SCORE: 98%

CUSTOMER'S SATISFACTION SCORE: 100%

Quality Policy

1. QUALITY PERFORMANCE.
2. ON TIME DELIVERY.
3. LONG TERM CONTINUOUS IMPROVEMENT TO ALL OF OUR PRODUCTS AND PROCESSES. OUR GOAL IS TO MEET CUSTOMER EXPECTATIONS AND SATISFACTIONS.

Capabilities

EMPLOYEES: (50-75 people)

- Office: 10
- Programmer: 06
- QC: 08
- Machinist: 30
- Deburring: 05
- Other: 05
- 3 shift (24/24) 06 days work per week.

MACHINERY: (50 machines)

- Milling: 20
- Turning: 10
- Wire cut: 02
- Grinding: 04
- Tumbler: 02
- Bead blasting: 02
- Horizontal saw: 02
- Hydraulic press: 02
- Laser etching: 02

MEASUREMENT:

- CMM: 02
- VMM: 02
- Hardness tester: 02
- Surface tester: 02
- Finish tester: 02
- Concentricity tester: 02
- Height gauge: 02
- Micrometer, Caliper, Pin gauge, block gauge... full standard size.
- Thread gauge: full standard size Inch & Metric.

REVENUE:

- 2019: 1.2 Million USD
- 2020: 1.5 Million USD
- 2021: 1.8 Million USD
- 2022: 2.3 Million USD
- 2023: 3.0 Million USD

FACTORY: (Total 2,000 m2)

- Fabrication: 1,000 m2
- QC: 100 m2
- Programming: 20 m2
- Receiving: 20 m2
- Reception: 20 m2
- Conference: 20 m2
- Office: 60 m2
- Assembly & Clean room: 200 m2
- Other

SOFTWARE:

- Mastercam 2018
- Solidworks 2020
- Autocad 2020
- Microsoft Office

Outstanding Products

Aerospace 30%	Medical device 20%	Semiconductor 20%	Meat cutting blades 30%	Automotive 20%
				

Customers

Thank you
